"The problem is how, conditions of continuous and accelerating change, to put people first; and poor people first of all; how to enable sustainable well-being for all"

ROBERT CHAMBERS
Whose Reality Counts: Putting the First Last
1997

AIT EXTENSION
Asian Institute of Technology

"Differences among people are quite relevant to the choices administrators make, the organizations people create, and the rationales that prompt people's actions"

KATHLEEN STAUDT
Managing Development, State, Society and International Context
1991

AIT EXTENSION
Asian Institute of Technology

"A key element in sustainable project outcomes is a design based on a holistic consideration of livelihood systems, needs and opportunities. Narrow, sector-focused interventions can be a risk to sustainability in various ways."

IFAD-TANGO international
Sustainability of Rural Development Projects
Best practices and lessons learned by IFAD in Asia
2009
