

What Our Graduates Do

ALUMNI TESTIMONIALS

"As soon as I successfully defended my MPhil thesis, I got a breakthrough in my career and became part of a French based NGO as a Senior Research Officer. I am engaged in projects related to Microfinance, Nutrition and Humanitarian issues. Concisely, it would be not out of kilter to be held that MPhil Development Studies at PIDE facilitated me and sharpened both, my qualitative and quantitative analyses skills, and made me a socio-economic, humanitarian researcher. (Mawish Iqbal, alumna, Senior Research Officer, ACTED, Pakistan.)"

"MPhil in Development Studies from PIDE enabled me to develop skills which have continued to influence my practical experiences beyond my time at university. The inter-disciplinary approach allowed me to gain a holistic understanding of political, cultural and social contexts in Pakistan and hence was immensely beneficial towards preparing me for my career aspirations. The in-depth knowledge and competencies in areas such as intercultural communication, history, public policy and political economy allowed me to become an independent thinker and this has been instrumental in my success as a civil servant at Federal as well as Provincial level. (Asif Iqbal, alumnus, Head Human Resources, The Techleadz)"

MPhil Programme

DEVELOPMENT STUDIES

Join the pioneer institute of researchers who are curious by nature and passionate about learning, doing research on contemporary development issues with dedication and commitment.

Imparting Multidisciplinary Knowledge
to Address Key Development Challenges

Why Development Studies?

Development Studies equips students for professional work in government agencies, international business and finance, international development agencies and non-governmental organisations as practitioners, policymakers, development researchers, programme analysts, financial analysts and economists.

Why Study Development Studies at PIDE?

Established in 1957, PIDE is an autonomous organisation devoted to conduct theoretical and empirical research in Development Economics in general, and Pakistan-related economic issues in particular. PIDE offers its students a thriving environment where theoretical insights coupled with enhanced analytical skills will allow the graduates to follow multiple career paths.

Since its inception in 2011, Department of Development Studies has been offering:

- Cross-cutting *multidisciplinary* approach
- *Competitive* environment
- Coursework and research on a wide range of topics across many standard divisions
- Focus on traditional as well as novel and synchronic approaches to fieldwork situated within development research.

Programme Overview

MPhil Development Studies resonates with the realities of countries in transition through innovation and excellence in its academic programme. A strong focus on theory and methods equips graduates to apply new insights to policy analysis in a practical context.

Programme Length

The length of the programme is 24 months. Students are expected to complete eight courses in a combination of four elective courses and four core courses, for a total of 24 credits besides writing a dissertation. The list of the elective courses is subject to change and is regularly updated to suit contemporary development debates.

Eligibility

The programme is intended for students having Masters and/or four years BA/BSc degree with 2.5 CGPA out of 4.00 or equivalent in any development related discipline, preferably Social Sciences.

Scholarships

We recognise hardworking students by investing in their potential and assisting them fund their educational goals. At PIDE, scholarships are awarded on the basis of academic excellence and financial needs.

COURSES OFFERED

Core Courses (3 credits each)

1. Development: History, Theory, and Policy
2. Research Methods for Development Studies
